

Preface on Donated Wills

This is a list of items held in the Library relating to the wills of over a thousand people (mainly in Cornwall). The list provides only basic information, as a means of directing further attention if desired. It comes from only a cursory look at the document. They vary greatly in age, legibility, readability and comprehension, so the data in the list is certainly not comprehensive (and sometimes is simply our best guess!). Anyone interested in a particular character is well advised to look at the specific document. The list is derived from one, some, or all, of the following types of document:

- a) actual "last Wills & Testaments (original & photocopies);
- b) court documents issued related to wills/probate;
- c) schedules of goods & chattels
